v1.2

**L^AT_EX support files for Softmaker Artistic
available at**

<http://www.freefont.de>

August 21, 2010

Package author:

Josef Kleber

This package offers L^AT_EX support files for the Softmaker Artistic font available at www.freefont.de in May 2010.

These support files were created with the `installfont` bash script, which is available in CTAN.

Attention

This package does **not** include the fonts (license restriction). They are or were available for free download at www.freefont.de, as well as part of some font collections of [Softmaker](#).

1 *Artistic (May 2010)*

1.1 *Package options*

The font style file offers the following options:

1.1.1 *scaled*

You can use the option `scaled` for scaling the font to better match with other fonts, e.g. `\usepackage[scaled=1.03,leading=1.05]{iceberg}`.

1.1.2 *leading*

For some fonts it might be necessary to increase the leading between lines for a better optical impression, where 1.0 means 100%.

1.2 *The Font*

First of all, you have to get the font. Download it for free at www.freefont.de or get it from [Softmaker](#). Copy the Postscript Type1 font `Artistic.pfb` to your local \TeX tree:

TEXMF:/fonts/type1/softmakerfreefont/Artistic/

<i>Family</i>	<i>Series</i>	<i>Shape(s)</i>	<i>Example of Typeface</i>	<i>Supported Encodings</i>
<i>bat</i>	<i>m</i>	<i>n</i>	<i>Artistic</i>	<i>OT1, T1, TS1</i>

1.3 *Installation*

The following steps will show you the installation in the case of MiKTeX . For another \TeX distribution please take a look in its documentation.

- get `artistic.tds.zip`
- extract it in the main directory of your local \TeX tree
- update the *FileNameDataBase (FNDB)* in MiKTeX Settings or with `initexmf -u1` on the command line
- include the map file
 - run `initexmf --edit-config-file updmap`
 - add `Map artistic.map` in the opening editor
 - save the file and close the editor
 - run `initexmf --mkmaps`

¹for system-wide installations you have to add the `--admin` switch

1.4 Usage

If you want to typeset your complete document with the font Artistic simply add `\usepackage{artistic}` to your preamble. If not, simply add another font package after `\usepackage{artistic}`. You can switch to the font Artistic with the command `\FFArtistic`, which is a shortcut for:

```
\fontfamily{6at}\fontseries{m}\fontshape{n}\selectfont
```
